Light Count	Pole ID #	Primary Street Address	Secondary Street	Component Type	Existing Ambient Light (FC)	Existing Ambient Light (Lux)	Ward #	Priority
33	TBD	York Drive (2nd entrance)	Middlesex Drive	Ameren Post Top	unknown	unknown	1	TBD
34	TBD	Sussex Drive	York Drive	Ameren Post Top	unknown	unknown	1	TBD

**Fiscal Year 2018 Adopted Budget
Proposed Street Light Additions**

NOTES:

"Light Count" cells highlighted in yellow indicate overhead electric wiring connected to a wooden pole and bracketed luminaire.

"Light Count" cells without yellow highlight indicate underground electric wiring connected to a fiberglass pole and post top luminaire in one of four styles.

"Pole ID #" listed as To Be Determined (TBD) since Ameren assigns pole identification placards.

"Component Type" listed as 100 W Ameren bracketed luminaire on wooden pole or 100 W Ameren post top luminaire on fiberglass pole.

"Priority" will be determined using lowest lux value as first parameter and total cost as second parameter to assign ranking.
