Residential Curbside Leaf Vacuuming Fall 2020

Provided by Hendel Lawncare Inc. - Serving the greater St. Louis area for over 35 years

November 9, November 23, December 7, and December 21

Once again Hendel Lawncare will be providing Curbside Leaf Vacuuming service for the residents in your area. This year our crews will be in your area on the four dates listed above. That gives you 4 opportunities to set out your leaves through the season. You can set your leaves out to the curb once or all four times. Price is based by volume of leaves not by how many pick-ups. OUR REGULAR RATE FOR THIS SERVICE IS: \$125.00 for the first ten minutes and \$5.00 for each additional minute per pick up.

Take advantage of this special rate:

\$95 up to .5 acre, \$125 .5 to .75 acre, \$145 .75 to 1 acre

Larger lawns call for pricing. If you do not know your lot size please check St. Louis Co website to see. If the right amount is not paid you will be billed for the difference and an administrative fee may be applied.

Payment MUST be received by the Thursday before the scheduled pick up date. Routes are set on Fridays.

A \$35.00 fee will be charged to all returned payments

All leaves must be out before 8 am on the scheduled dates, for an additional charge we can return for late pick-ups. It may take 1 or 2 days to complete all piles depending on how many residents participate and how great the volume of leaves is for each pick-up. Dates may be pushed back for weather related reasons. Please be sure to leave an e-mail address or phone number with your payment so we can contact you if there are any major delays or issues. In the event of a snow storm before a pick up date, make up dates will be posted on the website:

WWW.HENDELLAWNCARE.COM

*** ONLY LEAVES ARE ALLOWED IN PILES*** If any other items are in the leaves, or vehicles blocking your pile they will be skipped and an additional charge will be added to return to finish them. Please be sure that there are no bricks, rocks, logs, bushes, plants, and tree limbs with the leaves, as this will cause damage to our equipment, (Small twigs are acceptable). Leaf piles are easily vacuumed if placed along the curb line *with the back edge of the pile no more than 5ft from the curb line, as the hose on the truck can only reach out about 5ft. If the volume of leaves is large and expands past the 5ft, make the pile as tall and narrow as possible and cover the full width of your property rather than spreading out wider than 5ft. Piles too flat and spread out or too far from the curb line may be skipped and a charge added if requested to return. If you are on a corner lot, leaf pile needs to be in front of your house, there will be an additional charge to pick up the pile on another street.*
